The Greatest Invention of the Age. West's Patent Galvanic Cement. FOR ROOFING.

THE subscriber is now prepared to cover roofs of buildings, with a new and better article than ever before known. The public are aware that our Govern-ment has had scientific men experimenting, and that & has been the study of the Architects and Builders, for years, to discover an article for rooling purposes, that would stand the sudden changes of the weather, and be impervious to fire and water, and remain a permanent fixture. As yet, nothing has been attained with-out costing more than the people wish. The contraction, expansion and rusting of metal roofs, are so gr in changeable climates, that they become useless, less being repaired at great expense yearly. Shingles are not fire proof, and can not be used on flat roofs, and the various Compositions and Cements that have been brought into use for rooting, do not stand the ac-tion of the weather, but they run when it is warm, and erack when frosty, and after one or two years become imbly and worthless, whereas, the inventor of the ivanic Cement, has labored twenty years to dombine rucies to obviate those difficulties, and can testify from is long experience, and ammorous testimously from chasic persons, who have had his combination applied to their buildings, that his Cement is the cheapest ad best article ever before known. The combina this Cement is such that it is calculated for new roofs, flat or steep, covering over old shingles without removing them, iming cave-troughs, seaming around battlements, chimneys and sky-lights. Cover-ing car-tops, steamer-decks, &c. This Cement, by its on-conduction and galvanism, prevents metal roofs om rusting and nusohlering, and resists the extremes f wood buildings, making them fire-proof. Its ape humale cottage. undersigned having secured the right to the State ennessee, will sell rights of Territory, by Counties Towns, on reasonable terms: The subscriber is also prepared to cover roofs couldings, in any part of the State, at short notice: This Roof is now being put on in this city, for the benefit of all concerned, and warranted to excel all other modes of Roofing. The subscriber has had his mode of Roofing tested as to its qualities, during the last ting regular seventeen day trips. oved satisfactory, to which a number of the most ominent citizens can testify. W. S. BENNEIT, PROPRIETOR. Attached is a note from John L. Mondan, Esq., Archtect, by which may be seen the opinion of Mr. Samuel Sloan, the celebrated Architect, and writer upon Archiitecture, whose experience with this mode of rooting without a doubt, as satisfactory to all.
Missiens, March 12, 1857. MR. W. S. BENNETT .- When in Proladelphia, Pa., a few days ago, I called upon Mr. Samuel Sloan, the celebrat ed Architect, and author of the Sloan Work on Archi tecture. Lasked his opinion as to the durability, &c. of West's Patent Roof, such as you are using in the city Memphis, and he told me that he had no hesitation a saying to me that it is a good and durable roof, and all that its advocates claim it to be; farther saying that he is using it on a fine building for himself.

Respectfully, JOHN L. MoRGAN, Architect.

MEMPIUS, June 26, 1857. WHOM IT MAY CONCERN :- This is to certify that the Memphis and Charleston Railroad Company have pur-chased of W. S. Bennett, the right to prepare and use upon their Depots, Buildings, Cars, &c., &c., West's Galvanic patent fire and water proof Roofing, and that we believe it to be an economical and durable cover-ing, having already had it in use for eight months. SAM. TATE, President. F. C. ARMS, Gen'l Supt.

W. S. Bennerf, Esq.—Dear Sir.—The facts within our nowledge of the durability, &c. of West's Galvanic ement; are these; The building you covered for us ast Spring, I am happy to state, has answered our expectations. We can, therefore, recommend it to the public for all roofing purposes; as a light, cheap, fire and water proof roof. It does not get soft and run from the effects of the heat of the sun; nor does it rden and crack from the effects of the cold. Any persons wishing to know more of this article, can call

MEMPHIS, Topu., Dec. 8th, 1856. To WHOM IT MAY CONCERN :- This is to certify that Bennett covered two roofs for me last Sorie with a composition called West's Patent Galvanic Coment, one of them was a new deck, the other an old shingle roof, which are giving perfect satisfaction. H also repaired a domer window, which leaked badly, and had ballled the skill of Carpenters to prevent its leak ing, which he succeeded in making perfectly tight do most cheerfully recommend his mode of roofing to the public, for all reefing purposes, and believe it to be a permanent fixture against fire and water. MR. BENNETT:—Dear Sir:—Our company having been coubled very much with leaky cars, put some of your Patent Paint upon them, and so far as my knowledge extends, I can cheerfully recommend it to any who wish a dry roof of any sort. Yours, &c., H. COFFIN, Superintendent.

MEMORIES, TENN., Jan. 14, 1857.

To THE PUBLICS—W. S. Bennett made application to us last Summer to cover our buildings with West's Galvanic Cement; it being a new thing, we thought we would try it; had it applied to our like assimith Shop and Engine House, attached to the Foundry. They have proved all required of a water proof roof, having with stood some of the greatest storms, and are giving good satisfaction. We can only add, try it and you will be satisfied.

GURTIS & KNAPP, Iron Founders.

Maxerus, Jan. 14, 1857 Mr. Bennett has done some small amount of roofing for me in his peculiar way, with Cotton stuff, coated with a preparation the basis of which appears to be a Coal Tar. It is a very effectual and light roof, and appears to promise considerable durability, from the preservative qualities of the composition, which penetrates the cloth and protects it from the influence of the air and water. The Composition does not liquify and run from the effects of the heat of the sun in Summer, nor does it harden and crack from the influence in the cold of Winters n and crack from the influence in the

Roca's Remedy for Pulmonary and Tubercular Consumption. HAVING been appointed sole Agent for the sale of Don GEROSINO ROCA'S celebrated CURS FOR COS-SUMPTION, the public will now be put in possession of one of the most extraordinary remedies extant for what has heretofore been considered an incurable I have the more readily undertaken the agency, from the fact of its extreme simplicity—being an outcome of opplication, the action of which is seemingly miraculous, and its having none of those attributes which GUNS, CUTLERY & HARDWARE.

> With the utmost confidence in the success of this remedy, which has heretofore been used in private practice with great success, as is shown by numerous letters and certificates, is now offered to the public. A pamphet, containing directions, letters from dis-tinguished individuals, and documentary evidences from the physicians of the hospital of Havana, Island of Cuba, &c., will accompany the remedy.

Persons of Consumptive Habits,

JOHN MYELS.

Totten's Wells, Tenn.
The Grafenberg Consumptive's Balm will effectually

cure Consumption and all complaints of the lungs. In cases of Cold on the Langs and Chest, Languer com-bined with Difficult Breathing, Pains in the Cheet, and Bronchitis, the Græfenberg Consumptive's Balm will effect a complete cure and prevent the disease from

becoming a confirmed Consumption. In all cases, de-lays are dangerous. They are as an hundred fold to all diseases baving a tendency to Consumption. We

earnestly advise all to procure the Consumptive's Balm in season.

About the first of June last, I had a negro man taken RAZORS, with a cough attended with restlessness, spitting of blood, and other dangerous symptoms of consumption. I immediately called in a truly skillful and scientific

ET CETERA physician, who told me it was a case of consumption. He treated him for several weeks, but he gradually GO TO grew worse. I then had another physician of great reputation in lung diseases. He examined him, and also decided it to be a hopeless case of consumption, WILLIAMS & CO., (AT KIRRMAN'S OLD STAND.) and said it was useless to spend money in trying to cure him.

I had previously promised the Græfenberg Agents here, (Messrs. Wells & Lowell.) that when the doctors gave him up I would try the Græfenberg Consumptive's Balm. I did so and to my agreeable surprise, the man began to improve after taking only five or six doses. He took only two bottles of the Balm and three bottles of the Græfenberg Sarsnjarilia Compound, which cost me the small sum of nine dollars, and to day I consider him entirely carred. AYER'S CHERRY PECTORAL FOR THE RAPID CURE OF Coughs, Colds, Hoarseness, Influenza, Bronchitis, Whooping-Cough, Croup, Asthma, Incipient

Consumption,
And for the relief of Consumptive patients in advance stages of the disease.
We need not speak to the public of
its virtues. Throughout every town,
and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it al-ready known. Nay, few are the fam-ilies in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and longs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmo-nary organs, it is also the pleasantest and safest remedy that can be em-

ployed for infants and young persons.

Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cheker Personal saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inex-orable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disrders, and as they know too the virtues of this r edy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce the most perfect possible, and thus afford those who rely on it the best agent
